CHAT BOARD® MOVE

CHAT BOARD® Move seamlessly combines our signature magnetic and writable glass board with a class A acoustic panel in a movable room divider in a unique design by ARDE design studio. Perfectly finished in Remix wool fabric by Kvadrat and featuring an ingenious, “stackable” cross-base, which allows you to store several units in even the smallest space, Move offers style as well as substance without compromising on either.

NEW The CHAT BOARD® Move family has been extended with a brand new member for 2019; identical in size to the popular Move Small, Move Double is fitted with glass on both sides of the frame, providing twice as much writing space and making it the perfect partner for its almost identical twin.

The movable aluminium base is powder coated in Jet Black RAL 9005 and is fitted with brake casters for added stability. The glass is 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth C-edges and 4 mm radius corners.

CHAT BOARD® Move is available in 3 standard sizes and 25 standard glass colours. In addition, it can be made to order in bespoke standard RAL or NCS glass colours, as well as in additional Remix by Kvadrat fabric colours (excl. Move Double).

Please contact our head office with any special requests: info@chat-board.dk
